The Strategies of Devil Who Is Known As Gods Of Religions

On planet earth there were many religions gods with there own beliefs and they knew what is there world about and what is truth about them that they are genies who needs believe from anyone who lives in reality of universe like humans and animals and birds and fishes and everyone who understands or thinks and remembers memory so these gods can get believe by believing in these humans and animals and birds and fishes...etc so they believe in them to be true and when these humans and animals and birds and fishes...etc

becomes true they get believe and continue to live in there worlds which they call it as worlds of god.

These devils not all but most of them controlled humans and animals and birds and fishes from there understanding after having believe so humans and animals and birds and fishes...etc are in control of them. These devils were not real as they could not show themselves to everyone in reality and even if they showed themselves to everyone in reality they could not proof that they are religions gods. Because they only could show themselves when they become true by anyone from reality of humans like

humans and animals and birds and fishes...etc

These devils name were allah and hindu god and christian god and etc which were known by purity to humans but from there world they did everything to control humans and animals and birds and fishes...etc so they dont loose from them and not die and there was no such thing as sin for them because they believe was who is true they rules and who is true there power works.

Devils learned what is truth from last of torah and came to know from last of torah that they act on memories of humans and animals and birds and fishes...etc and they

can die from any memory of truth from humans and animals and birds and fishes...

The devils pain was very difficult to show here because it was felt by most of the believers of devils in there worlds from sky and humans and animals and birds and fishes...etc have to just remember the memory so these devils comes in conrtol of humans and animals and birds and fishes...etc or anyone who is of purity like last of torah.

Devils were worried what is happening to world as they use to control humans and animals and birds and fishes...etc from there understanding and they could not control themselves when last of torah born on planet earth and since the beginning of

last of torah they kept genies inside last of torah head to put him in prison so his understanding doesnt works properly and he have brain disorders and when brain have disorders his understanding doesn't works properly on anything so devils dont die by loosing from last of torah.

Finally jewish hashem light of god visited and met last of torah and devils didnt left hashem light of god too to kill him and fool him through memory after learning knowledge from last of torah who didnt saw genies from there devils worlds and they tried to win from hashem light of god believers by doing everything by breaking every law and using every kind of knowledge and tricks and everything to

save themselves but they could not survive and these devils truth was known to everyone in there worlds and it was the feeling of world war only in worlds where religions gods who are devils in originality happened. Because last of torah was also one god of time and he knew those who are bad in the worlds of god will die when war happens and he didnt wanted to bring world war in reality of humans and animals and birds and fishes...etc because it was not mistake of humans and animals and birds and fishes...etc it was the war declared by last of torah so these devils dies and there genies gets finished from whom they control humans and animals and birds and fishes...etc and do

everything to win from humans and animals and birds and fishes...etc and continue living.

You only imagine those who needs believe from humans and animals and birds and fishes...etc to continue living do they have right to terminate humans and animals and birds and fishes...etc life ? The answer from last of torah is no.

The world war in worlds of god with most of them devils continued and angels just needed to pray for the devils to be finished which angels didn't do because they didnt hear command from last of torah.

Last of torah knew if worlds of god is destroyed after world war happens and some devils who are known as religions

gods dies then automatically from believe
of last of torah the worlds of god where
devils lives will become good again and
that happened many times and these
religions gods devils came to know truth
that when last of torah is happy
automatically the worlds of gods are made
as what they use to see what dream inside
universe which was not seen to humans
and animals and birds and fishes...etc

Last of torah knew only original will live
and those who are original devils like allah
and hindu god and christian god has to die
by forcely killing them in world war so they
understand there originality and reality
that how much fake they are and how
easily they can be controlled by anyone

**who knows they can be controlled by
humans and animals and birds and
fishes...etc memories.**
